In S3 you will begin to personalise the subjects you study as you progress towards the Senior Phase. You will be required to continue your studies in all curriculum areas next session. All students will be allocated their Maths, English, PE, PSE, core RMPS and Scottish Studies classes, so you don't need to choose these subjects. Follow the steps below to make the rest of your choices and your reserve choices. **Remember, you can only choose each subject ONCE.**

### Step 1: First, select your curriculum choices:

Read through the options in the curriculum choices column, select one option in each section. In Social Subjects you must pick two, *Note People in Society runs over both columns and if chosen you will only take this as your social option.*

Curriculum Area	Subject	Select 1 in each section
		<u>Curriculum choices</u>
Sciences	Biology	
	Chemistry	
	Physics	✓
	Environmental Science	

### Step 2: Now select your free choices - 1 per column

**Choose your 2 additional free choice subjects by placing one tick in each of the free choice columns.** Remember, you can only pick each subject ONCE, you can choose 2 from the same curriculum area for this section - eg. French and Mandarin from 'Languages' curriculum area.

### Step 3: Now select your reserve choices - 1 per column

Select your reserve choices by placing a tick in the relevant boxes. **Remember, you must choose reserves that you would be happy to study as you may get one or both choices.**

### Step 4: Finally, select your reserve subject from the Social Studies/Media group

Place a tick against either Geography, History, Modern Studies, Media, RMPS or Travel & Tourism in the final column. **You must select a subject here that you have not picked previously.**
