Formal Assessments to Support Provisional Results 2021

During the phased return of Senior Phase students prior to Easter, the focus will be on learning and teaching and supporting our students with a return to the school environment.

Almost all Formal Assessment opportunities to support Provisional Results will take place post Easter. A full schedule of these assessments is in development and will be shared with students, parents and carers prior to Easter.

There are a few Formal Assessments which will take place prior to Easter- mainly in practical subjects which require specific resources.

Assessments marked “not final” below are primarily intended to provide students an opportunity for timed assessment practice and feedback. There will be additional opportunities for these particular assessments in the summer term for all students. Whilst many students are keen to undertake practice, we appreciate that others may not and teachers have been advised to speak with students on their return and make flexible arrangements on an individual basis.

As assessments take place at different times depending on the Column that they take the subject in, students will be informed of any specific timings via the Subject Google Classrooms. In order to ensure that students have appropriate notice of these assessments, subjects will have already communicated with students about these via the Google Classrooms.

We are currently working with our colleagues across Midlothian to finalise the formal assessments for the summer term and a schedule will be available in the next couple of weeks. Please find a summary of assessment taking place prior to Easter below

	Subject	Level	Key Course Component
Week Beginning 15th March 2021	Health & Food Technology	National 5/Higher	Assignment
	Computing	Higher	Assignment
Week Beginning 22nd March 2021	French	National 5	Performance- Speaking
